"Recensione "Daido Moriyama's photography is made solely by instinct, raw need, decisions dictated by the gut, not the head. In his images there is no logic, there is no thought, only a need to satisfy. **Looking at his pictures is like taking on the visual perception of a wild animal** that roams around in a frenetic search for food."-DOMUS MAGAZINE L'autore **Daido Moriyama** (born 1938) is one of the most important living photographers and photo-book makers. **Filippo Maggia** is currently researcher in the Photography Department of the Royal College of Art. Since 2010, he has taught photographic documentation at the Accademia di Belle Arti in Catania (Sicily).".
