A trip to the Revere Public Library proves fatal for thirty-six-year-old Yolanda Fiore. Her body is found early one morning at the bottom of the library's staircase. The evidence shows she'd been struck on the back of the head before her fall. In this fifth Periodic Table Mystery, retired physicist Gloria Lamerino is not inclined to take on another murder investigation--her romance with homicide detective Sergeant Matt Gennaro is all the contact she needs with the Revere Police Department. But Gloria will do anything for her lifelong friends and current landlords, Rose and Frank Galigani, operators of the Galigani Mortuary. So when their son John is arrested for murdering Yolanda, his former girlfriend, Gloria goes in search of the real killer..

the boric acid murder by camille minichino kirkus reviews

October 23rd, 2019 - plucky gloria lamerino the retired middle aged physicist who lives upstairs from the galigani mortuary in revere mass doesn t believe her landlord s son john had anything to do with the death of his ex girlfriend yolanda even if the cops have pulled him in after all john s successor in yolanda s heart was assistant director of the library where she was found sprawled at the bottom of
