"Recensione The Progress with Oxford series offer a 'constant companion' in each book which are little characters who help along the way, making it fun and enjoyable for the little ones. (theworldistheirclassroom.blogspot.com)The two activity books sent in our package I loved, and more importantly so do my Bitsy Bookworms! Created with busy families in mind, from a parents point of view they are fabulous! They fully support the National Curriculum, and best of all, have picture clues to show your child how to do each activity independently genius! All of the books contain a character to keep learning fun and contain loads of fun stickers to reward effort. There's also a progress chart at the back which is a handy checker for both of you as to which objectives have been met. (bitsybookworms.com) Descrizione del libro Fun multiplication, division and fractions for 6-7 year olds."
