"Pressestimmen Terrifying, sometimes comic, very readable and totally enthralling--Oliver SacksExtremely gripping and unusually well written--RICHARD DAWKINS Über den Autor und weitere Mitwirkende Stuart Sutherland, born in 1928, was Professor of Psychology at the University

of Sussex where he founded the Laboratory of Experimental Psychology. A prolific columnist and contributor to the Observer, the New York Times and the Daily Telegraph, and is best known for his iconoclastic book Irrationality, which was first published in 1992, and Breakdown, his candid and movingly personal account of his manic depression. He died of a heart attack in 1998."

**rational irrationality**

June 4th, 2020 - the concept known as rational irrationality was popularized by economist bryan caplan in 2001 to reconcile the widespread existence of irrational behavior with the assumption of rationality made by mainstream economics and game theory the theory along with its implications for democracy was expanded upon by caplan in his book the myth of the rational voter the original purpose of the concept was to explain how detrimental policies could be implemented in a democracy and unlike conventional
