Self-Service Business Intelligence Power BI enables business users to interact with corporate information and to extract the reports and intel they need. Power BI allows users to access reports and dashboards using familiar tools and devices. Self-service BI has never been so user-friendly! The Microsoft Power BI Step-by-Step series will show you how to create compelling visualizations and reports which provide deep insights into your data. This first book in the series is designed to get you up and running with the three main components of Power BI: Power BI Desktop, the Power BI Service and Power BI Mobile Apps. What you will learn from the Power BI Step-by-Step Series You will learn how to connect to a wide variety of data sources, using both Power BI Desktop, and the Power BI Service. You will be able to use the Query Editor to transform and morph data into the right format for your reporting purposes. You will be able to perform complex data modelling operations using relationships, calculated columns, measures, and DAX expressions. You will learn how to share dashboards and reports, with colleagues, business partners and potential clients; and how to use Power BI's sophisticated security features to control the exact content your audience is able to view. In short, the Power BI Step-by-Step series will equip you with all the skills you need to start using Power BI with confidence. G Com Solutions Limited G Com Solutions Limited provide Power BI training in Peterborough, London and throughout the UK. Details of their Power BI courses can be found at the following URL: <https://gcomsolutions.co.uk/microsoft-power-bi-training-courses/>.
