"Reseña del editor It starts in the housing projects and school playgrounds of Liverpool, where four boys would discover themselves - and a new form of music called rock 'n roll. It takes us from the famous first meeting between John and Paul, to the clubs of Liverpool and Germany when George and Ringo join the band, down Penny Lane and Strawberry Fields, to America and the height of the Beatles' success - when they were still teenagers. In Yeah! Yeah! Yeah!, Spitz recreates the thrills, tears and magic of his New York Times bestselling adult biography, but in a style and format that's accesible for young readers. This book includes photos, sidebars and graphic elements. It's a book

about teens who changed the world. Biografía del autor Bob Spitz has represented the careers of Bruce Springsteen and Elton John. He is the author of The Beatles, The Making of the Superstars, Barefoot in Babylon, Dylan, and Shoot Out the Lights. His articles appear regularly in various international publications."
