Le livre se propose de présenter en un seul volume l'ensemble des thèmes de Culture générale au programme de la 1ère année de préparation des classes ECS et ECE. Ce programme, très vaste, est conçu comme un panorama des grandes questions qui ont constitué la réflexion occidentale depuis ses origines. A destination des étudiants, cet ouvrage propose les points essentiels du programme, sans prétendre ni à l'exhaustivité, ni au traitement de questions trop précises. Au plus près des intitulés du programme, il permet une grande lisibilité et offre de nombreux outils méthodologiques. Cet ouvrage constitue une base à partir de laquelle, l'étudiant pourra s'orienter pour approfondir tel point ou compléter ses connaissances. Il présente la plupart des questions en les articulant sur la réflexion contemporaine, sans démagogie, mais en montrant comment la culture peut nourrir la pensée actuelle et aider à la compréhension des problèmes. Culture générale, est donc conçu comme une plate-forme ouverte à la fois sur la culture issue de la tradition et le monde contemporain..
