Awakening the Soul addresses issues of the loss of soul throughout the world and the loss of meaning and truth in modern life. Using ancient myths and stories and compelling insights, Michael Meade illustrates how meaning is essential to the human soul and describes how soul can be recovered and people can learn to "live in truth." Drawing from dramatic episodes in his own life, Meade shows how the soul tries to awaken at critical times, and how an awakened soul is crucial for finding medicine to treat the ailments and alienation of modern life. What we need now is not a minor repair, but a major transformation of the world that can only start with the awakening of the individual soul..
