"Pressestimmen 'These flash cards are an excellent educational tool that will help students at all levels. I would recommend them to my anatomy students. They are comparable to Anatomy Flash Cards: Anatomy on the Go, Gilroy (Thieme, 2008)) in content, but the latter has a better online resource that allows students to study each illustration with or without labels, along with a self-testing feature. Nevertheless, this second edition of the Gray's flash cards is a very worthwhile update of a valuable student resource. Weighted Numerical Score: 100 - 5 Stars!' - Jill E. Feinstein, M.S.(Richland Community College), Doody's Review Rezension The essentials of anatomy in a convenient flashcard format!
