C'est parce qu'elle agit vite et bien que l'homéopathie est particulièrement adaptée aux enfants qui - et cela a toute son importance - acceptent très facilement les remèdes homéopathiques. De la conception aux premières années de la vie, le Dr Thierry Joly, pédiatre homéopathe, détermine pour chaque âge les caractéristiques spécifiques des maladies infantiles et propose les solutions homéopathiques appropriées. Des portraits-types permettent par ailleurs de reconnaître le " terrain homéopathique " de votre bébé, et donc de trouver le traitement qui lui sera le plus parfaitement adapté. Troubles de l'alimentation, du sommeil ou du comportement, maladies du nourrisson et de la petite enfance... homéo Bébé est un guide d'utilisation quotidienne qui vous sera d'une aide considérable pour acquérir votre propre expérience de l'homéopathie, et la mettre au service de toute la famille..
