Sound and vibration are of the oldest healing modalities, as well as occult tools of technology. Yet still considered "cutting-edge," and only recently are people becoming aware of this powerful force.It's rich history and colorful characters, who's works with sound and vibration for free energy and healing are still for the most part unknown, as well as it's current uses and recent research and technology

are reviewed. The properties and origins of specific tones and frequencies are explained, and what has been found to be misconstrued if not intentionally misleading information currently being promoted is exposed. Brainwave entrainment, the Schumann Earth Resonances, A432Hz vs the A440Hz "Standard" pitch, the "Ancient Solfeggios," Om/AUM, EMF's and orgone, cymatics, and more are examined. The relations of sound to color and light and the chakras, and a new system of attunement never before utilized is revealed..
