

absolute masterpiece.' (Let Them Be Small)'Totally absorbing and completely different - another winner from Wide Eyed Editions.' (Parents in Touch)'If you are after a brilliant fact-filled animal book but also want a bit of 'wow' factor, Illuminature is utterly stunning stuff.' (Read It Daddy Blog)'The experience of revealing the hidden secrets is magical and a little like the wonder one feels when looking through a kaleidoscope. Children will be completely captivated by the stunning design of the book.' (Adventures In Homeschool)'What will you discover on your journey through the wild? Featuring ten of the most diverse environments in the world this book will most certainly not disappoint and its unusual kaleidoscope of colour will intrigue and fascinate all readers with an interest in the world around them, sparking a natural curiosity to learn more.' (Armadillo)'This is an awesome look at over 180 animals and the plethora of plants that inhabit ten of the world's very different environments?' (Red Reading Hub)'Discover the dazzling biodiversity of ten of the world's most diverse habitats with the aid of a 'magic' three-coloured lens? With striking, naturalistic artwork from design-duo Carnovsky, this novel approach to non-fiction is a stand out!' (INIS Reading Guide 2016/17) Reseña del editor Explore ten of the world's most diverse environments and reveal their hidden secrets with a magic coloured lens that illuminates each page in a kaleidoscope of colour. Discover the dark and mysterious creatures of the night, whose super-sensory powers allow them to live and survive in the shadows, then switch the lens to step into daylight, where the heat of the sun supercharges the secret lives of creatures big and small. Finally, use the third lens to reveal the luscious plant life of every habitat as you travel through a jungle, a reef, grasslands, woodland and uncover a world that never sleeps. This is an animal book like no other, allowing you to view the natural world in full technicolour. Biografía del autor Milan-based design duo CARNOVSKY was started by Silvia Quintanilla and Francesco Rugi in 2007. They have gained wide recognition for their RGB project, first displayed in 2010. Their work has been published in magazines around the world, such as Vogue, Wired, Frame, Wallpaper, Elle Décor, and Whitewall. Their wallpaper 'Jungla' won the 2012 Wallpaper Magazine Design Award for Best Wallpaper. Australian-born Rachel Williams studied creative writing before becoming an editor and publisher of children's books. Atlas of Animal Adventure is one of the many books she has written for children."
