Brands pay her around \$2,000 to upload a single photo wearing their items of clothing. Last month I made \$10,000 I designed this guide to teach readers how they can start earning money from the Instagram account they already possess. Everyday I see far too many profiles that could easily draw in thousands of dollars per month, but due to a lack of experience and information they do not. With this book I want to change that. The Influencer Marketing industry is booming right now, there are endless opportunities for anyone ready to take them! If you follow the teachings of this book and apply the lessons it presents, you will earn money whether you have 1,000 followers or 500K. This Book Will Teach You... How To Publish Sponsored Posts How to Find Brands Willing to Sponsor You How To Establish Affiliate Sponsorships How To Your Own Product or Service How to Sell Your Own Photos or Designs **How Much Money You Can Expect?..**
