L'eterno destino della nobile famiglia siciliana degli Uzeda di Francalanza è quello di dominare: sotto gli spagnoli e nel Regno delle Due Sicilie, con il denaro e la violenza; dopo l'impresa dei Mille, mediante il tradimento e la finzione. Capolavoro del verismo italiano, scritto da un autore non ancora trentenne, I Viceré (1894) inserisce la saga della casata in una vasta narrazione storica. Il romanzo diventa così un memorabile affresco dell'aristocrazia isolana nel drammatico momento del passaggio dal regime borbonico alla nuova realtà sociale dell'Italia unita, rappresentato con una straordinaria capacità di penetrazione nel tessuto vivo della storia..

Systems Approach to Appropriate Technology Transfer
