"Reseña del editor Explore the capabilities of robots and the computers that control them, from space rovers to drones, from robotic toys to robots that perform surgery, and meet Pepper, the first robot able to show and understand human emotion. What is a robot? Will

robots take over the future? Robot Universe gives young readers a look at the past, present, and future of artificial intelligence. Perfect for 9-11 year olds reading independently, reading becomes a fact-discovering adventure with these Level 4 readers. Supporting and encouraging a lifetime love of reading, nonfiction subjects are clearly explained, described vividly, and brought to life with true encounters, fascinating statistics, and dramatic photographic images. Additional information spreads are full of extra fun facts, developing the topics through a range of nonfiction presentation styles, such as articles, journals, and timelines. **Series Overview:** Trusted by parents, teachers, and librarians, and loved by kids, DK's leveled reading series is now revised and updated. With shiny new jackets and brand-new nonfiction narrative content on the topics kids love, each book is written and reviewed by literacy experts and contains a glossary and index, making them the perfect choice for helping develop strong reading habits for kids ages 3-11."
