"Reseña del editor This unique book invites readers to explore the mysterious world of time zones. The illustrations on each page depict the same single moment in time, presenting the reader with a vast array of interwoven human stories from around the world. Readers are introduced to a number of different people and activities, from to a nomad leading his camels through the Sahara Desert to a pod of humpback whales traveling through the Pacific Ocean. Biografía del autor Thomas Hegbrook is a nature lover with a talent for illustration and design. When he's not creating beautiful books, he likes to spend time with his wife and son and their two dogs."
