"Synopsis The plantations and historic homes of South Carolina, one of the richest states for plantations, draw millions of visitors each year. Several of the state's plantations are strong tourist draws: Boone Hall has gardens, its own hotel, restaurant, and museum shop; several others also have inns and B&Bs. African-American tourism is also especially strong in the state. 'South Carolina's Plantations and Historic Homes' covers approximately 30 of the best and most representative sites, the most popular destinations, and those with giftshops. Each site features at least one outdoor shot, and some include interiors and garden shots. In addition, sites with slave quarters are highlighted for their historical importance, as South Carolina is one of the nation's premier African-American tourist and cultural destinations. This book has a built-in audience in the millions who visit the plantations and historic homes. South Carolinians with an interest in the state's history and architecture and African-American culture tourists will also be drawn to this volume."
